

## Enjoy life from your garden!

Welcome to our October 2017 Newsletter. The Nursery looks beautiful! Spring colour is abundant with many of our trees, shrubs, perennials and rhododendrons already in flower. The first rhododendrons are in flower now, including the blue flowered Rhododendron St Breward with many more to flower soon. This month we have new perennials including the dwarf *Aquilegia pumila* with both white and blue flowered forms in flower. *Clematis integrifolia* has flower buds and will be showing their deep blue flowers soon too. The first flower buds are on the *Francoa* already and these are always very popular. We also have large grade *Heuchera Amethyst* in 2.5 litre pots at about 30x30cm in size. This is a new crop that has more vigour than most of what you will see on the market as we have gone back to our original reference plants and propagated from these. *Iris pumila* are looking great with their dwarf flowers. *Meconopsis* are growing well now and we have a great selection including the deepest blue form *Lingholm*. *Viola Sorority Sisters* are a great selection of ground cover that flower freely from September onwards and come in spectacular pink and blue shades. In the shrubs and trees, we have the new *Malus Flamingo* coming into flower with deep red buds opening to masses of mid pink double flowers. The upright form makes this a great small tree for avenues and edges of driveways. The deep burgundy foliage makes a stunning display from now on. Other plants that caught our eye include....

### Heuchera Amethyst

Red purple leaves all summer. Makes an attractive ground cover or garden edge.

[More info.](#)

### Pseudowintera Lime light

Lovely form with lime green leaves forming a dome to about 1m tall.

[More info.](#)

### Francoa appendiculata Pink bridal flower

Large soft green leaves forming an attractive clump. Flowers are a soft pink on a stem 50cm long in summer. Plant in full sun or partial shade.

[More info.](#)

### Meconopsis betonicifolia alba White Tibetan poppy

White flowers in spring. Plant in a cool shaded garden away from wind. Ht. 1m. Deciduous.

[More info.](#)

### Meconopsis betonicifolia Hensol Violet

A striking violet flowered poppy for the woodland garden. Likes moisture and shade. Deciduous. Ht. 1m.

[More info.](#)
