Meconopsis Lingholm

Shrub, Perennials & Rhododendron Catalogue 2026

Dear Clients & Friends

Welcome to our 2026 Indent Catalogue. This year we proud to offer you our largest selection of Rhododendrons, Perennials, Shrubs and Trees. Plants don't get onto our list without first being tested in our trial areas where we assess them for disease resistance, plant habit, hardiness and garden habit. With our skilled breeding, market research, and horticultural best practice we are proud to offer you our carefully curated selection to help your customers enjoy life from their garden.

The Rhododendron crop is looking amazing with the cooler summer resulting in strong bushy growth. The plants have enjoyed the extra moisture. Our plants are growing in the field under shade and then lifted in the Autumn/Winter and potted into 7.5 litre pots. This process is critical to growing a quality Rhododendron. If Rhododendrons are grown in pots rather than in the field, they very quickly form a root mass at the edge of the pot that forms a glazed root system. It is very hard to get the plant to grow out of this glazed root mass and makes it hard to establish the plant in the landscape. We work hard to grow you a plant that will establish easily in your customer's garden.

This year we are particularly excited to offer an improved range of perennials including many of our old favourites including Scabiosa that we first grew here in the 1930's for cut flowers and today many of our customers still grow them for cutting. Delphinium make a return this year after an absence last year. We love the summer display they make and working with New Zealand bread varieties is very rewarding. They are truly the best in the world. Meconopsis or Tibetan Poppy are back again this year and their strong blue colour is unmatched in the garden. We have a much better seed source now so we should have these every year going forward. We have over 60

different perennials so too many to mention them all here. Have a good look through this list and if you have any questions, please feel free to send us and email or phone us. We are always happy to chat about our new and exciting plants

Cornus greenvale is the most popular dogwood in New Zealand and for good reason. It covers itself in white bracts/flower in late spring and keeps flowering until nearly Christmas. It is a more well branched tree than other dogwoods resulting in a more rounded plant with a lot more flowers

Leucothoe Crimson Globe is very popular with a compact rounded habit and deep burgundy red foliage over winter. It is a versatile plant growing well in a narrow boarder or in containers. A must for your garden centre or landscape.

It has been a challenging year with continued price pressures we have spent some time costing our production systems and freighting process. This has resulted in some price rises on our crops but also a few they have come down in price. We are dedicated to producing the best plant possible for your customers in the most efficient way possible. With continued prices rises we will assess our prices throughout the year and there maybe some changes to come.

This year will see continued changes in the market and here on the nursery we are implementing new information system, websites and production system to meet these changes- we look forward to the challenge. We also continue to breed new and exciting plants and work with other plant enthusiasts to bring you the best plants.

Enjoy the list and please contact us with any question or just to have a chat about our lovely plants.

Kind regards from the Blue Mountain Team

Denis, Chris and Rebecca Hughes

| Arabis Catwalk White Uniform and compact, globe shaped habit make a fantastic rounded plant for the garden or in pots. Ht 25cm | ARAB CWH 140 | 10 | 0.5L | C |
| ARBUTUS | | | | Irish Strawberry tree |
| Arbutus canariensis Dark green leaves and white, to blush pink Lily of the Valley like flowers in late spring. Protect from wind. Ht.4m. Evergreen. | ARBU CAN 175 | 110 | 2.5L | C |
| Arbutus u. Elfin King Small compact evergreen tree with pink flushed flowers and strawberry like fruits in winter. Very hardy. Ht 2m. | ARBU ELF 175 | 40 | 2.5L | C |
| ARMERIA | | | | Dwarf Goat's Beard |
| Armeria Morning Star (Deep Rose) Deep rose pink flowers cover this small perennial all summer. Great for a sunny position. Ht 15cm | ARME MORR 120 | 10 | 0.5L | C |
| Aruncus | | | | Goatsbeard |
| Aruncus aethusifolius This dwarf form is great for the smaller garden or as an edging along borders or paths. It forms a low mound of light green, ferny foliage, with short spikes of creamy-white flowers in early summer, similar to Astilbe. Ht 30cm | ARUN AET 140 | 15 | 1.5L | C |
| Aruncus dioicus kamtschaticus White plumes of flowers in summer with large cut leaves. Likes moist soils. Ht. 1.5m. Deciduous. | ARUN DIO 140 | 25 | 1.5L | C |

ASTELIA**Astelia chathamica Silver Spear**

A hardy native for a shady position. Very striking and attractive. H: 1.5m x 1.5m
Evergreen.

CHATHAM ISLAND ASTELIA

ASTE SPE 175 25 2.5L C

Astelia fragrans Westland

Red brown foliage all year on a flax like clump for a semi shaded damp garden.
Ht.1m. Evergreen. Native.

ASTE WES 175 25 2.5L C

ASTER**Aster alpina**

White, blue or pink daisy flowers in early summer. Hardy Alpine Aster. Ht.20cm.

ASTE ALP 140

Alpine Aster

1.5L C

ATHEROSPERMA**Atherosperma moschatum**

Small Tasmanian tree, with fragrant cream flowers in summer. Ht 4m. Evergreen.

ATHE MOS 175

Black Sassafras

30 2.5L C

Aurinia**Aurinia saxatile Gold Kobold**

An evergreen perennial forming a low, bushy mound of oval, grey-green leaves.
Tiny golden-yellow flowers are borne in small clusters from spring into early
summer

AURI GOL 140

1.5L C

Azalea**Deciduous Azalea**

These tough hardy deciduous Rhododendrons produce spectacular usually highly scented flowers in spring to early summer. In autumn they also make a fine display with their autumn foliage. They are indispensable for punctuating the seasons in a good garden. For best performance plant in an organic free draining acid soil. Blue Mountain Nurseries is famous for developing many of the double azaleas available with Denis working on more all the time.

Azalea Brazil

Flowers of bright tangerine red with frilled edges, scented. Relatively small blooms,
but profuse. 3 metres after 10 years

AZAL BRA OG

30

7.5L C

Azalea Caroline de Rothschild

Large frilly pink and cream flowers in November. Fragrant. Ht. 1.5m. Deciduous.

CAREX

Carex lessoniana

A robust sedge growing to 1m with wide green leaves and flowering stems. This tussock can form colonies.

CARE LES OLV 20 1L C

Carex testacea

Bronze and green native grass. Best planted in clumps. The form we grow has beautiful orange foliage.

CARE TES 140 15 1.5L C TUSSOCK

Carex virgata

Dark green arching grass for a swampy area. A good plant for waterside area and very damp soils. Growing to about 90cm

CARE VIR OLV 45 1L C

CARPINUS

Hornbeam

Carpinus betulus

A medium tree with grey fluted trunk and oval ribbed leaves. This hardy tree retains its brown leaves over winter when young. Great for hedges and pleaching. Ht 5m. Deciduous.

CARP BET 6 100 6L C Common Hornbeam

CARPODETUS

Carpodetus serratus

Dark green leaves with light marbling on surface. Masses of small white flowers cover tree. Very hardy and reasonably quick growing. Ht 4m. Evergreen.

CARPO SER 175 50 2.5L C Marble Leaf

CEANOTHUS

Californian Lilac

Ceanothus Blue Mound

Compact spreading bush with masses of blue flowers in summer. Clip after flowering. Plant in sun. A superb hardy ground cover. The smallest Californian Lilac I know. Ht 0.5m x 1m wide. Evergreen.

CEAN BLU 175 10x20 2.5L C Californian Lilac

CEDRUS

Cedar

Cedrus atlantica glauca

The conspicuous blue needles make this tree one of the best blue conifers. Hardy. Ht 5m. Evergreen.

CEDR AGLA 175 90 2.5L C Blue Cedar

Cedrus deodara

The graceful slightly pendulous growth makes a fine well furnished pyramidal ornamental conifer. Ht 5m. Evergreen.

CEDR DEO 175 40 2.5L C Himalayan Cedar

Cedrus deodara Aurea

One of the best golden trees for a dry position. A graceful golden specimen with drooping branches. Ht 5m. Evergreen. Conifer.

CEDR DAU 175 90 2.5L C Golden Himalayan Cedar

Centaurea

Centaurea dealbata Pink Passion

A lovely clump forming perennial that has upright lilac blue daisy like flowers during summer. Ht 40cm

CENT PIN 140 25 1.5L C

Centaurea montana

A perennial with lobed leaves, hairy beneath, and blue flower-heads about 5cm across sometimes reddish in the centre. Flowering from late spring to summer. Ht 50cm

CENT MON 140 20 1.5L C great blue-bottle

Centaurea pulcherrima

Gray green feathered foliage with pure pink flowers. Ht 40cm

CENT PUL 140 25 1.5L C

CEPHALOTAXUS

Cephalotaxus harringtonia

Hardy conifer for well drained garden. Will stand shade. Green leaves. Ht. 2m. Evergreen.

CEPH HAR 175 30 2.5L C

CERATOSTIGMA

Hardy Plumbago

Ceratostigma willmottianum

Rich blue flowers in summer, red tinted autumn foliage. Dry well drained soils.
Protect from hard frosts. Ht.50cm. D. Deciduous.

CERA WIL 175 30 2.5L C
Hardy Plumbago

CHAMAECYPARIS**Cham. lawsoniana Stewartii**

Bright golden foliage all year. Upright growing conifer for the border or specimen tree. Ht 3m. Evergreen.

CHAM LST 175 55-65 2.5L C

CHIONOCHLOA**Chionochloa rubra**

Bronze red foliage all year. Prefers moist soils or light shade. Ht 1m. Evergreen.

CHIO RUB OLV 20 1L C
Red Snow Tussock

CHOISYA**Choisya Aztec Pearl**

Pink buds open white with narrow leaves on a compact bush of green. Ht 1.5m. Evergreen.

CHOI AZT 175 30 2.5L C

Choisya ternata

White flowers in summer on a compact bright green bush. Ht 1-1.25m. Evergreen.

CHOI TER 175 35 2.5L C
Mexican Orange Blossom

CHRYSANTHEMUM**Chrysanthemum c. Robinson Red**

Hardy perennial lovely red flowers grows to 90cm

CHRY COCR 140 10 1.5L C

Chrysanthemum coc Robinson Pink

Lovely Pink daisy grows to 90cm

CHRY COCP 140 10 1.5L C

Chrysanthemum coc. Super Duplex

Daisies in a super mix of white, pink, dark red with both single and double flowers. Easy to grow. Can be used as cutflower and attracts butterflies as well. Ht 70cm

CHRY SUP 140 50 1.5L C

CLEMATIS**Clematis heracleifolia**

Perennial Clematis. Small lavender flowers in summer. Clump forming but still needs some support. Likes well drained soils and sun. Ht. 1m. Deciduous.

CLEM HER 140 25 1.5L C
tube clematis

Clematis integrifolia Blue Ribbons

A dwarf form that has large deep blue flowers that look out at you from the bushy plant. Ht 75cm

CLEM INTBR 140 30 1.5L C

Clematis integrifolia Mongolian Bells

Flowers are pink through to blue on a bushy plant. Flowers in from late spring throughout summer H1m

CLEM INTM 140 30 1.5L C

Clematis macropetala

Low growing climber, covered in violet-blue flowers in spring. Good on a low wall or fence. HT 1m. Deciduous.

CLEM MAC 140 35 1.5L C
Clematis

Clematis montana Snowflake

Masses of white flowers in spring. Very hardy climber. Ht 3m. Deciduous

CLEM SNO 175 65 2.5L C
Clematis

Clematis x cartmanii Sweet Hart

Beautiful white flowers in spring on a small climbing or weeping native Clematis. The deep green parsley like leaves complete a picture of beauty. Evergreen. Ht. 1m.

CLEM SWE 175 50 2.5L C

| | | | | Lancebark |
| HYDRANGEA | | | | |
| A rewarding group of shrubs at their best when most others have finished for the year. The very popular H.macrophylla (H. hortensia) has very attractive heads of flowers from mid summer to autumn. They are divided into two groups - those with mop heads (round ball heads of flowers), and lacecaps (a flat head of flowers with the spectacular large flowers as a ring around the edge of the head) The flower colour may be: creamy white, pink - red, or pale blue - deep violet blue. It is most unusual in that pink or blue flowers are controlled by the availability of aluminium in the soil. Acid soils and aluminium sulphate gives blue flowers. Sweet, alkaline soils and no aluminium gives pink - red flowers. Flower size may also be dramatically improved by a good, well drained moist fertile soil, giving the best results. Pruning should be done each year in the spring and restricted to removing dead and weak wood right out at the base of the plant. Also some thinning maybe necessary to allow room for new water shoots to come through from the base each year. Do not trim the top back, as the flowerbuds were formed the previous summer/autumn. H.macrophylla should be protected form the worst of the winter frosts, this is why the deadheads should be retained until spring. I find the H.arborescens and H.paniculata forms much tougher to winter cold. They may be pruned in late winter or very early spring, as flower buds do not form until this time. | | | | |

Terms of Trade - Wholesale

1. General

- 1.1. When you enter any transaction with Blue Mountain Nurseries Limited (**BMN**), you acknowledge that:
- a. you have read and agree to these terms in full; and
 - b. BMN is transacting with you on the basis that these terms will apply in full to the transaction.

2. Payment

- 2.1. The Purchase Price is in NZD and is made up of the following:
- a. The cost per plant plus GST
 - b. delivery costs (if applicable)
- 2.2. The cost per plant is the price recorded in the order form, catalogue or on our website.
- 2.3. Prices are subject to change without notice. We reserve the right to amend any pricing errors displayed due to human error, computer malfunction or other reason. We will notify you of any error in pricing and you may elect not to purchase the goods where the price has been corrected.
- 2.4. The Purchase Price is payable in the following manner:
- Orders to be delivered within a month:
- a. The Purchase Price is payable in full at the time of order; or
 - b. If a trade account is open with BWN then payment will be charged by invoice following delivery of the plants and is payable by the 20th day of month following the date of the invoice (**Due Date**).
- All other orders:
- c. A non-refundable deposit of 30% of the Purchase Price is payable upon submission of the order (**Deposit**); and
 - d. The balance of the Purchase Price will be charged by invoice following delivery of the plants and is payable by the Due Date.
- 2.5. Interest will accrue at 2% per month on all amounts outstanding from and including the Due Date until the date the unpaid amount is paid in full. BMN's right to require payment of interest does not limit any other rights or remedy available to the BMN.

3. Orders

- 3.1. The minimum quantity that may be purchased in any one variety and size of plant is as follows:
- a. 5cm, 7cm, 90mm and OLV pots - 20 plants
 - b. 140, 175, 6L, 250, 9L and 25L pots - 3 Plants
- Orders of plants less than the minimum quantity may be accepted at BMN's discretion at a premium cost of 50% extra per plant.
- 3.2. Once the order is submitted it may not be modified without the consent of BMN and the Purchase Price is payable in full as set out in these terms.

4. Delivery

- 4.1. Delivery may be by collection or by freight, as agreed by the parties on confirmation of the order.
- 4.2. If delivery is to be made by freight:

- a. BMN will arrange freight at the cost of the Purchaser, payable as part of the final invoice.
 - b. At BMN's sole discretion, it may offer free freight on orders within the South Island that exceed \$600.00 (excluding GST).
- 4.3. If delivery is to be made by collection. The Purchaser must arrange for collection of the plants, at its own cost, by the date agreed between the parties.
- 4.4. If the Purchaser fails to collect the plants or accept delivery by the agreed date, BMN may charge a storage fee of 25% of the Purchase Price per annum, calculated daily, until the plants are collected.

5. Risk and ownership

- 5.1. The plants remain the property of BMN until full payment has been received.
- 5.2. Risk for the plants transfers to the Purchaser upon delivery.

6. Plant condition

- 6.1. BMN will take reasonable care to ensure that all plants sold by it are true to name and description and are of merchantable quality. It is the Purchaser's responsibility to inspect all plants on delivery to ensure they meet the Purchaser's satisfaction prior to planting.
- 6.2. If the Purchaser wishes to reject non-conforming or defective plants, it must do so in writing to BMN within 48 hours of delivery.
- 6.3. In respect of any claim made by the Purchaser in accordance with clause 6.1 or 6.2, BMN will assess the claim and, at its sole discretion may:
- a. replace the plants; or
 - b. refund part or all of the amounts paid.

7. Dispute resolution

- 7.1. The parties agree that they will attempt to resolve any dispute between them arising out of these terms in good faith in the first instance.
- 7.2. If such discussion fails to resolve the dispute, either party may (by written notice to the other) refer the dispute to the Disputes Tribunal.
- 7.3. The parties must continue to comply with their obligations under these terms during the dispute resolution process.

8. Force majeure

- 8.1. Neither party will be liable for any act, omission or failure of its obligations under these terms if and to the extent that such act, omission or failure arises from any cause beyond its control, or the effect of which cannot be reasonably predicted.
- 8.2. Those events may include, but shall not be limited to, Acts of God, machinery or equipment breakdown, acts of war, epidemics, government actions which are imposed after the date of this agreement, fire, lightning strikes, power failures, earthquakes, Weather condition or other disasters (**Force Majeure**).
- 8.3. The party unable to fulfil its obligations due to a Force Majeure will immediately;
- a. notify the other in writing of the reasons for its failure to fulfil its obligations and the effect of the failures; and
 - b. use all reasonable endeavours to avoid or remove the cause and perform its obligations as soon as possible.
- 8.4. Where any delay or failure by a party to perform its obligation due to Force Majeure exceeds 30 days, either party may immediately terminate the contract on providing notice in writing to the other party.

9. Limitation of liability

- 9.1. BMN is not liable to the Purchaser for any loss or damage arising from delay or failure to perform its obligations due to any Force Majeure as outlined in clause 8.
- 9.2. Where the Consumer Guarantees Act 1993 applies, nothing in this agreement affects the Purchaser's rights and remedies under that Act.

10. Purchaser's obligations

- 10.1. The Purchaser shall not transfer or assign all or any of their rights or obligations under these terms without BMN's prior written consent.

11. Default by Purchaser

- 11.1. The Purchaser agrees to indemnify BMN and pay, on demand, all costs incurred by BMN in the enforcement of these terms.
- 11.2. If the Purchaser defaults in any payment or fails to comply with these terms, BMN may suspend or terminate this agreement and all amounts owed by the Purchaser to BMN will become due and payable.

12. General provisions

- 12.1. These terms and conditions apply to all transactions where BMN supplies plants to the Purchaser.
- 12.2. If any provision contained in these terms is held to be void or unenforceable, this will not affect the enforceability of the remaining provisions.
- 12.3. Any waiver of these terms must be made in writing and signed by an authorized person.
- 12.4. These terms are governed by the law of New Zealand.
- 12.5. BMN may review and change these terms from time to time at its sole discretion.
