Wholesale Indent Catalogue 2017

Dear Clients & Friends

Happy New Year! Welcome to our 85th catalogue. We have done our catalogue on CD once again. When you put the CD into your computer you will see both a black and white and colour catalogue available as pdf files. You will require a computer with a pdf reader installed (most will already have this) such as "Adobe" (<http://get.adobe.com/reader/>) that can be downloaded from the web for free. If you have any problems with viewing the catalogue let us know so we can make other arrangements for you to access the catalogue. The catalogue is also available on our wholesale website at www.bmn.co.nz

We are always introducing new varieties that are always very popular and sell out quickly. We have more new lines available this year, so order early so as to not miss out. We are always adding to our range from New Zealand and overseas.

Some of the interesting lines from this year's catalogue come from a wide range of plants including perennials, shrubs and trees. This shows the wide range of plants that we enjoy growing for you and your customers.

From an increasing range of perennials, this year we are releasing a fantastic new *Bergenia* called Wanaka Wine that forms a strong rounded clump with deep burgundy wine coloured leaves during late summer and over winter. The flowers are deep fluorescent pink and glow in the evening light during late winter and spring.

We also have *Aconitum cammarum* Bicolor available with its lovely blue and cream flowers that put on a stunning display in spring and early summer. *Primula jap.* Appleblossom flowered last winter and I was very impressed with the number of flowers and the soft pink colour that contrasted well against the deeper coloured japonicas. *Echinacea purpurea* Doubledecker is a very interesting new *Echinacea* that has flowers on top of each other giving rise to its name. These were first developed in Germany a few years ago.

The *Meconopsis* are stunning with glowing blue flowers and as the name suggests, the Himalayan blue poppy hails from Himalaya.

A plant that is very rare and most exciting is the *Podophyllum Kaleidoscope* and Spotty Dotty or Mayapple. These have large leaves with distinctive dark spots on the upper surface. We first released them last year and they are proving to be very popular. They have deep burgundy red flowers that hang under the leaves in late spring and early summer. It grows best in a shaded area similar to where hostas grow.

A selection of our trees and shrubs that are looking great this year include our very popular *Cornus Greenvale*. It covers itself in large white flowers in late spring and this year's was still in flower for Christmas. As the flowers age they go a lovely pink colour contrasting well with the green foliage.

This year we are very excited to have the first plants available of *Pseudowintera Lime Light* after developing this plant over the past 15 years we now have enough to start selling it. The soft lime green/gold leaved contrast well with the soft red spots to the leaves during winter. It forms a neat rounded plant growing to about 50cm in 10 years. It can be grown as a low hedge or as a feature plant in a garden border.

The *leucothoe* f. *Crimson Globe* have sold well this year and are putting on fantastic deep burgundy colour as the summer heat continues. The rounded form make a good container plant for a shaded area. *Malus Flamingo* has proven to be a very good feature tree with its deep red leaves and upright habit making it suitable for the smaller gardens and sections in the modern subdivisions. The double deep pink flowers are a real show stopper in early spring.

Rhododendrons have always been popular and with the redevelopment of gardens in Christchurch they have been selling very well. Our 2017 crops of Rhododendrons are looking great having already made one flush of growth and some starting on their second flush, making a bushy well rounded plant. Most varieties are forming flower buds beautifully and will be ready for lifting and potting from March - April. We anticipate having some plants available from mid April with others coming on stream in May. We have included a selection guide for the Rhododendrons showing their colour, height and flowering times. We are also very happy to put together a range that will suit your area and growing conditions -all you need to do is give us an idea of numbers. Again, some varieties listed are in short supply so I encourage you to order and take receipt of your order early as all orders will be supplied on a first in basis.

All our prices are freight free **on orders over \$500.00 (excluding GST) paid by the 20th of the month following deliver**. This works well for our customers as they know exactly how much their plants will cost.

Also to help our well organized, loyal indent customers, we are offering a **5% discount on orders dispatched during the months of April, May, June, and July for consignments over \$500.00 and paid by the 20th of the month following delivery**. In the past this has encouraged customers to have stock earlier and many have sold these plants and needed more stock. It also spreads our dispatch load making the spring dispatch more manageable.

We grow an exciting and wide range of plants but we don't grow all of these in wholesale numbers. We encourage you to draw on our stocks of these lines to fill your retail orders and to take advantage of our special discount during the months of April, May, June and July.

If you have any questions, would like to know about availability or require information about a particular variety please feel free to contact us.

Have a look at our new website at www.bmn.co.nz . The password to get wholesale pricing is tree14 - simply click on login at the top right hand side of the home page and then click on "are you a Wholesaler" and enter the password. Our Indent list is also available on the website.

Kind regards from the Blue Mountain Team

Bergenia crassifolia

Large, green, leathery glossy leaves with red margins forming a clump. Rose-pink flowers among the foliage in mid-winter through early spring. Best when grown in light shade or a cool sunny site. Ht 50cm

Elephant's Ear

BERG CRA 140	25	140	C
BERG CRA 175	25	175	C

Bergenia Wanaka Wine

New 17

A Pat Stuart selection with lovely burgundy leaves in winter, tall heads of large bright rose pink flowers in early spring. Makes great ground cover in light shade, drought tolerant.

BERG PAB 175		175	C
--------------	--	-----	---

BETULA

Birch

Indispensable, easy to grow trees. Very tough and hardy, making specimens very quickly. As trees go, they are quite short lived, having a life span about the same length as humans. Great for shade, shelter, autumn colour, ornamental trunks, dainty weeping foliage and some with coloured foliage. When senescence is reached they make very ornamental wood piles, before burning very brightly on the winter fire.

Betula maximowicziana

The largest leaved Birch. Truck orange brown hardy quick growing round headed tree. Yellow autumn foliage. Ht 4m. Deciduous

BETU MAX 6	140	6	C
------------	-----	---	---

Betula nigra Heritage

A vigorous tree with peeling light brown to creamy bark and dark glossy green leaves. Ht 4m.

BETU HER 6	100	6	C
------------	-----	---	---

RIVER BIRCH

Betula pendula Tristis

Tree of moderate size with bright yellow autumn colour. Lovely white trunk, with dainty weeping branches. Hardy. Ht. 5m. Deciduous.

BETU PENT 6L	140	6	C
--------------	-----	---	---

Silver Birch

Betula pendula Wades Golden

A small growing Birch with golden yellow stems making a special display in winter when the bare branches look at their best. Great golden autumn colour. Ht.3m. Deciduous.

BETU WAD 25	300	25	C
BETU WAD 6	150	6	C

Golden Silver Birch

Betula utilis jacquemontii

Beautiful white peeling bark and yellow autumn colour. One of the best for white trunks and at last being recognised. Hardy and easily grown. Ht. 5m. Deciduous

BETU JAC 6	160	6	C
------------	-----	---	---

Himalayan Birch

BUXUS

Box

Buxus sempervirens Suffruticosa

Dense mass of small dark green leaves bronzing in winter. Used for small formal hedges. Ht.50cm. Evergreen.

BUXU SUF 007	25	7	C

HOHE SEX 175 100 175 C **Lacebark**

HOSTA**Plantain Lily**

A tough hardy group of popular herbaceous perennials. All grow well in good moist well drained soils with light shade. Most have relatively small juvenile leaves when first planted but after several years develop handsome bold foliage through summer with spikes of attractive summer flowers. They form great ground covers for shaded borders (south side of buildings) or under trees, making for an easy care garden. There is a huge range of size and colour foliage no wonder in recent years there has been a great upsurge in their use and many new forms have been introduced.

Hosta Blue Cadet

Blue leaved hosta for a shaded garden or container.

HOST BLUC 175 10 175 C

Hosta Colour Glory

Leaves golden yellow with a green edge.

HOST COL 175 175 C

Hosta fortunei

Green leaves all summer with deep mauve flowers in summer. Plant in moist shaded garden. Ht 50cm. Deciduous.

Hosta Hadspen Blue

One of the best blue hostas of medium size. The flowers are in racemes of lavender in Jan-Feb

HOST HAD 175 25 175 C

Hosta Halcyon

Small growing blue leaved hosta for a shaded garden or container.

HOST HAL 175 30 175 C

Hosta Invincible

Thick mid green leaves and pale lavender scented flowers in summer. Hardy in shade and very tough.

HOST INV 175 10 175 C

Hosta June

A delightful Hosta of the fortunei group with glaucous grey-green leaves with gold centres Lovely in a container or a light shaded woodland. Lavender flowers in late summer. Ht. 45cm.

HOST JUN 175 10 175 C

Hosta Lemon Lime

Lime coloured leaves to 30cm tall make this a striking form.

HOST LEM 175 25 175 C

Hosta So Sweet

Medium sized leaves with a wide creamy white margin. Flowers fragrant and white.

HOST SOS 175 15 175 C

Hosta u. Albo-marginata (Thomas Hogg)

Leaves cream and green in summer. Prefers shade. Hardy ground cover.

H. undulata variety
HOST UALB 175 175 C

Hosta ventricosa

Dark green leaves make a bold display in the woodland garden. Violet flowers in summer. Likes shade.

HOST VEN 175 10 175 C

HYDRANGEA

A rewarding group of shrubs at their best when most others have finished for the year. The very popular *H. macrophylla* (*H. hortensia*) has very attractive heads of flowers from mid summer to autumn. They are divided into two groups - those with mop heads (round ball heads of flowers), and lacecaps (a flat head of flowers with the spectacular large flowers as a ring around the edge of the head) The flower colour may be: creamy white, pink - red, or pale blue - deep violet blue. It is most unusual in that pink or blue flowers are controlled by the availability of aluminium in the soil. Acid soils and aluminium sulphate gives blue flowers. Sweet, alkaline soils and no aluminium gives pink - red flowers. Flower size may also be dramatically improved by a good, well drained moist fertile soil, giving the best results. Pruning should be done each year in the spring and restricted to removing dead and weak wood right out at the base of the plant. Also some thinning maybe necessary to allow room for new water shoots to come through from the base each year. Do not trim the top back, as the flowerbuds were formed the previous summer/autumn. *H. macrophylla* should be protected from the worst of the winter frosts, this is why the deadheads should be retained until spring. I find the *H. arborescens* and *H. paniculata* forms much tougher to winter cold. They may be pruned in late winter or very early spring, as flower buds do not form until this time.

Hydrangea arborescens Annabell

White heads of flowers in late summer to autumn. Best in some shade. Ht.1.5m. Deciduous.

Phyteuma scheuchzeri New 17 Deep blue bell shaped flowers. A delightful rare relative of the campanula. Leaves are bright-green, heart-shaped. Ht 20cm	PHYT SCH 140		140	C
PICEA Spruce				
Picea orientalis A tall conical tree for shelter or as a specimen in the garden. Very hardy conifer. Ht. 5m. Evergreen.	PICE ORI 175	30	175	Oriental Spruce C
Picea smithiana Beautiful conifer with pendulous foliage of long green needles on branches upturned at the tips. Ht 5m. Evergreen.	PICE SMI 175	60	175	Western Himalayan Spruce C

Pieris**Lily of the Valley Bush**

This close relative of the Rhododendron requires the same conditions, and is used in the landscape in the same way. However the panicals of mainly white flowers are very distinct, and very ornamental as is the foliage, especially when in full new growth in the late spring. As with rhodos it is important to deadhead after flowering. I leave this until early November when all fear of frost is over. This delays the vulnerable new growth. To control weeds near the plants, mulch with pea straw/peat and bark mix/pine duff. This feeds the plant and keeps the roots cool and moist.

Pieris Flaming Silver

Brilliant red new growths turning green with a silver edge in summer. White flowers in spring. Ht. 1.25m. Evergreen.

**Lily of the Valley Bush**

PIER FLA 175 25 175 C

Pieris forrestii Wakehurst

Bright red new growths in spring and large panicles of large white flowers in spring make this a must for the woodland garden. Ht 2m. Evergreen.

PIER LOR 175 30 175 C

Pieris Jap. Scarlet O'Hara

Creamy white flowers flecked red with red stems. The earliest to flower. Young shoot bright scarlet. Ht. 1.5m. Evergreen.

Lily of the Valley Shrub

1 PIER SCA 175 30 175 C

Pieris Japonica Forest Flame

A superb hybrid with brilliant red new growths. Compact grower with white flowers. One of the best. Ht 1.5m. Evergreen.

Lily of the Valley Bush

PIER FORF 175 30 175 C

Pieris japonica Little Heath

Small white flowers with a pink blush in spring followed by red new growths. Leaves edged creamy white. Compact shrub. Ht. 1m. Evergreen.

Lily of the Valley Bush

PIER LIT 175 25 175 C

Pieris japonica Little Heath Green

Small white flowers with a pink blush in spring followed by bronze red new growths turning glossy green in summer. Neat compact bush. Ht. 1.5m. Evergreen.

PIER LITG 175 25 175 C

Pieris japonica Pink Delight

Compact tidy bush with pink flowers in spring. Ht 1.25m. Evergreen.

Pink Lily of the Valley Bush

PIER DEL 175 20 175 C

Pieris japonica Purity

Large glistening pure white flowers in spring smother this compact rounded bush. For best effect plant in sheltered semi shaded garden. Ht 1.0 m. Evergreen.

Red Lily of the Valley Bush

PIER PUR 175 20 175 C

Pieris japonica Valley Valentine

Red winter buds open to rose red flowers in upright pendulous heads covering the plant in early spring . Ht. 1.5m. Evergreen.

Lily of the Valley Bush

PIER VALV 175 30 175 C

Pieris Spring Candy

New 17

Pink new growths in spring. A compact rounded bush. Ideal for a low hedge in shade. NO LIME. Shelter from wind. Ht. 1m. Evergreen.

Lily Of the Valley Shrub

PIER SPR 175 25 175 C

Pieris Summer Wine

New 17

Deep wine red flowers in spring. Compact shrub with new bronze leaves. Height 1m.

Lily of the Valley

PIER SUW 175 175 C

PINUS**Pinus wallichiana**

An elegant round headed tree with glaucous foliage. Hardy. Ht 5m. Evergreen

PINU WAL 175

Bhutan Pine

10 175 C

PITTOSPORUM**Pittosporum eugenoides**

A native with dark twigs and glossy green oblong leaves. Hardy. Ht 4m. Evergreen.

QUER CER 25 150 25 C

Quercus ellipsoidalis

A medium tree with a short trunk and wide spreading head. Deeply lobed leaves turn crimson in autumn. Ht. 5m. Deciduous.

QUER ELL 25 1.5 25 C

Quercus rubra

A large tree with glistening green leaves in summer turning magnificent red in autumn. One of the finest trees for autumn colour. Ht 5m. Deciduous.

Scarlet Oak

QUER RUB 25 2.0 25 C

Rhododendron

Rhododendrons are indispensable for spring colour in any garden. There is a huge range of colours, sizes and shapes to choose from. They all prefer an acid free draining organic moist soil. In a position sheltered from the worst wind and hottest sun. I find they do best in a mixed boarder with a few trees dotted through e.g.. Maples magnolias, apples or dogwoods which contrast nicely.

Rhodo Albert Schweitzer

A large shrub of upright habit with large conical trusses of rose-Bengal flowers with a deeper red blotch in Nov. Ht 1.5m

RHOD ALBS OG 40 250 C

Rhodo Amity

Rose opal to red flowers in Oct. A compact bushy plant with nice silver grey new growth. Ht. 1m. Evergreen

([Groselaude x Britannia] x yak)

TERMS OF TRADE

This catalogue cancels all previous catalogues.

“Freight Free in Store” south island wide on orders over \$500.00 (Excluding GST) paid by the 20th of the month following delivery. All other orders will have freight charged at cost.

5% discount will apply on orders dispatched during the months of April, May, June, and July for consignments over \$500.00 and paid by the 20th of the month following delivery.

GST is extra, and prices are subject to alteration without notice.

Minimum quantity supplied in any one variety is 3 plants. Orders of less than minimum numbers per variety will be charged at a premium rate of 50 cents extra per plant.

Most plants are ready for dispatch in April. Orders placed will be supplied on a first come first served basis subject to shortages caused by conditions beyond our control.

Payment for plants supplied shall be due and payable on the 20th of the month following delivery.

A late penalty payment at the rate of 2% per month shall accrue on any amount outstanding from the due date until the date of payment. All costs incurred in the collection on any outstanding accounts shall be payable by the account holder.

All plants supplied shall remain the property of Blue Mountain Nurseries until payment for the entire order is made in full (including GST, any freight charge and collection costs).

Blue Mountain Nurseries take care to have all plants sold by them to be true to name and description, to the best of their knowledge, but any express or implied condition, statement or warranty, arising by statute or common law or otherwise, as to growth, description, quality or productiveness, is hereby excluded and Blue Mountain Nurseries will not undertake to replace failures or be responsible for the plants supplied.

Blue Mountain Nurseries shall not be liable for any loss, damage or deterioration to the goods during delivery to the purchaser that causes loss or damage to the purchaser. Any goods damaged during delivery must be notified to the last carrier immediately and to Blue Mountain Nurseries within 5 working days of the goods arrival for a credit to be given.

Blue Mountain Nurseries shall not be liable for any loss caused by late delivery of the plants because of crop failure, disease, Government or local authority regulation or order, Act of God, or Negligence of the Supplier and its servants.
